LEARNING OUTCOMES

Learning outcomes

The course learning outcomes, specific knowledge, skills and competences of an appropriate level, which the students will acquire with the successful completion of the course are described.

Consult Appendix A

- *Description of the level of learning outcomes for each qualifications cycle, according to the Qualifications Framework of the European Higher Education Area*
- *Descriptors for Levels 6, 7 & 8 of the European Qualifications Framework for Lifelong Learning and Appendix B*
- *Guidelines for writing Learning Outcomes*

Students should be able:

- To know the historical development of employment theories and policies.
- To understand basic concepts related to employment policies.
- To evaluate the importance of the changes that have taken place in recent years in the labor markets under the influence of transformative factors such as technological shifts and the climate crisis.
- To analyze the relationship of each employment policy with economic theories.
- To describe the factors that affect employment participation levels, as well as the broader contemporary trends in employment policies in the EU and Greece.
- To discuss the general, but also specific characteristics of modern employment policies and the variety of government programs and interventions aimed at combating unemployment and other labor market problems.

General Competences

Taking into consideration the general competences that the degree-holder must acquire (as these appear in the Diploma Supplement and appear below), at which of the following does the course aim?

<i>Search for, analysis and synthesis of data and information, with the use of the necessary technology</i>	<i>Project planning and management</i>
<i>Adapting to new situations</i>	<i>Respect for difference and multiculturalism</i>
<i>Decision-making</i>	<i>Respect for the natural environment</i>
<i>Working independently</i>	<i>Showing social, professional and ethical responsibility and</i>
<i>Team work</i>	<i>sensitivity to gender issues</i>
<i>Working in an international environment</i>	<i>Criticism and self-criticism</i>
<i>Working in an interdisciplinary environment</i>	<i>Production of free, creative and inductive thinking</i>
<i>Production of new research ideas</i>	<i>.....</i>
	<i>Others...</i>
	<i>.....</i>

Respect for difference and multiculturalism
Production of free, creative and inductive thinking
Working in an interdisciplinary environment
Others: Highlighting the social character of economic science

SYLLABUS

The course focuses on employment theories and policies. Therefore, the various types of work and unemployment as well as the categorization of employment policies are examined. The course also discusses the various procedures for designing, implementing and evaluating these policies. Emphasis is also placed on how employment policies have been shaped and developed during the recent decades, both at European and national level.
